The 6th Annual Meeting of the Diabetes & Cardiovascular Disease (D&CVD) Study Group of the European Association for the Study of Diabetes (EASD) held in Prague will cover new aspects in pathogenesis, epidemiology, diagnosis and treatment of cardiovascular disease related to diabetes. The conference will include lectures by invited speakers from European countries and standard oral and poster presentations. The cooperation of diabetologists and cardiologists in the treatment of shared complications in diabetic patients opens new possibilities in clinical practice.

Join us for the occasion of the D&CVD Annual Meeting in Prague!

Prof. Jan Škrha
President of LOC

Prof. Antonio Ceriello
President of D&CVD EASD Study Group

Main Topics:
- New insights in pathogenesis of cardiovascular disease (CVD) in diabetes
- Epidemiology of CVD in diabetes
- Early diagnosis of macrovascular changes in diabetes
- Hypoglycemic drugs and cardiovascular risk
- Incretin therapy related to CVD in diabetes
- Revascularization treatment in diabetic and non-diabetic patients
- Myocardial dysfunction in diabetes
- Non-pharmacological factors influencing CVD in diabetes
- New trends in antithrombotic and antiplatelet drug treatment

Meeting Venue:
Hotel DAP, Vítězné nám. 684/4, 160 00 Prague 6, Czech Republic
